

***Cuts to education funding
erase more than just deficits.***

Cuts to education funding – **\$80 million** this year and at least **\$300 million next year** – threaten the very foundation of our children's futures.

When education funding is cut

- Class sizes increase
- Programs suffer
- Fewer teachers are hired
- Infrastructure repairs are shelved
- Support staff and services are reduced

There are alternatives.

Visit **stopthecuts.ca** and contact your MLA to speak out against erasing education.
